

Vector TRI2 Touchscreen VAV Controller

Vector TRI2 is a single zone touchscreen variable air volume controller that operates independently of the air conditioning plant to provide temperature based zoning control for the designated zone.

FEATURES

- Single Zone VAV Control.
- Touchscreen Display.
- Easy to Setup and Install.
- Digital Input signal for Presence Sensor.
- Integrated Sensor for accurate room Temperature sensing.
- CO₂ sensor Input.
- Minimum Ventilation Functionality.
- BMS Integration.
- ECO mode for Energy Saving.
